Good morning all. I will ask that you share information in this dream with only **specific people**. Please do not give a hard printed copy to anyone as I am sure you will understand that there are those that love to get their hands on incriminating documents. So read and do not print but discuss with only individuals that need to know.

Most of you are not aware that we experienced vehicle trouble this past Monday. The new Honda Fit which we tow behind developed a HUGE mechanical problem. The transmission went into gear while being towed even though the shift selector was in neutral. The transmission was destroyed and the car has 15,000 miles on. We were told it would cost over \$4 thousand to repair it. We paid over \$500 to have it towed to the nearest Honda dealer which was Sioux Falls SD. We got a rental which Becky drove and I drove the MH (motor home). We are now in Savage Minnesota. We may return tomorrow (Friday) as the car may be ready. It is a 4.5 hour back and then 4.5 hour back to where the MH is.

Knowing that we have had a lot of money put out lately for the church rental, radio program, Chris's cell phone and internet problems, Roberts legal problems as well as their move back to Florida. Also additional funds to prepare the pamphlets for the Pentecostal dream. Total in the amount of a little over \$12,000 dollars. All of this with in

the last 2 weeks. Please know this is more than we receive over several months from donations.

All this aside, it has been an issue held up in prayer!

Dream from this morning:

(AGAIN NOT TO BE SHARED EXCEPT THE FOLLOWING PARTS WHERE IT APPLIES MAYBE BE SPOKEN, NOT PRINTED, BUT SHARED WITH CERTAIN SELECT INDIVIDUALS. IE: THOSE WHO WEAR THE UNIFORM)

In my dream the angel the Guide comes to tell me that I am not to worry about the cost of the repair of the Honda Fit. I am told that it will be taken care of with God's money but in a way that I will be shown later. But I was told not to worry about it. I was next shown that we (this ministry) are no longer unless instructed in a dream to financially assist anyone with financial problems. Each is expected to lay their money problems on God and not on His ministry.

a.

Next I am shown Beverly and I am also shown Bianca at the same time. (Bianca is our Dutch translator in St. Martin) I am reminded of how Bianca had a problem of approaching people on the beach (nude) and witnessing to them when the Holy Spirit had not prepared them. I was shown how Bianca was shown to walk quietly, look into the eyes of those as she passes, smile and continue on.

Beverly, you are to cease all forms of witnessing, teaching, sharing, instructing, etc.... You are to (in church) sit, do not speak unless asked a question. You are to not witness. You are not to hand out tracts, DVD's, or anything unless instructed to by this ministry (from God). You are to (at the pool) sit, rest and if someone looks at you smile but do not talk unless a question is asked. You are not to open the discussion nor speak of health, diet, religion. If an individual (through the Holy Spirit) ask you something you may briefly share but that this will be a short conversation. You are not to reply with a long lesson or teaching of information. You are to be the one who listens and the one who is to not talk.

You are to sit, listen and heal. You are NOT to teach, share or witness, but to sit with lips shut tight except to smile but with your ears and eyes wide open. I was told you need to heal but that involves not being involved but simply a listener. As you walk in your uniform look in to the eyes of those that look at you, if they smile, smile back. Do not speak. In the pool, listen to others and do not speak. You are to heal by listening.

I do not think there is any need to ask questions as it was very clear in the angels instructions. So I will **NOT** say if you have any questions email. Obviously you will not be calling.

b.

The dress uniform issue.

I was shown that for those that have been asked to wear the uniform that clarification is required. The shirt (camisole) that is suggested is like the v neck and regular camisoles that Becky and Isabel purchased at Forever 21. The camisole is thin and that the coloration of her nipples is shown though the cloth but the cloth is not sheer or see through. Becky will show those when we get to Florida what she wears if they want. Becky was also instructed to wear revealing provocative tops as well as dresses. She is to in all strive to wear as revealing clothes as she can. Becky has been told she is to have a mindset that she strives to be an exhibitionist. We talked of how we are to strive to be a part of the 144,000. Those that are asked to strive will do that --- Strive!

For the skirts it was explained that skirts or dresses is to be the main article of clothing worn. The only time a skirt would not be worn is those time when shorts need to be worn like when a woman is having her period. Other times would be allowed to wear shorts and slacks but the skirt should be what is always worn except for those times that warrant slacks or shorts. In other words there are times when a woman is not having her period but slacks or shorts would be ideal. Like cold weather, going through tall sharp grass. Common sense should come into play here and the individual should be able to comprehend what should be worn depending on the situation. So basically, going to the mall, to the store, shopping, picking up kids at

school, running errands – skirts. Walking through tall briar laden grass, digging a ditch, cold freezing weather – slacks or shorts. Again common sense.

The length of the skirt is to be short where it comes just below the butt cheek. If an individual is concerned when sitting down, that part of their butt or vaginal area may come in contact with something of the seat. I was told for those that have this concern it would be better for the individual to lift the back of their skirt and sit totally butt naked on the seat. The angel said where is the faith of being concerned of contaminants. The individual should sit on what cloth there is on the bottom of the skirt or dress and give no second thought. I was told that the skirt for only the select individuals should be short. The weight and size of the individual should be taken in to consideration. It was also understood that the individual would practice clean hygiene after going to the bath room. For example using a “wet one”.

The skirt is to come just below the butt cheek of a standing person. No concern should be made as to when they sit down. The thin or narrow spaghetti strapped camisole is to be thin enough but not clear, sheer or transparent.

The subject of temperature was discussed. If while wearing the uniform an individual goes into the cold or freezer part of a store the individual is to endure the cold. If the muscles contract it was explained that this would facilitate the working of the muscles and the lymph system. If sitting in a place that is cool like a restaurant the individual is to endure. I was taken from this dream for a moment to be shown how those in prison would be made to sit and in some cases almost reach hyperthermia. Foremost each is to remember we are to strive. It will not be easy. Was it easy for what Jesus had to do. Did He not strive. We all need to know and understand that we will have a song to sing, a story to share of what we endured for Him.

c.

Becky and I will be staying at I believe Cypress Cove and we are to meet with any that come over. (At least we think that is where we stayed last year.) Before we had decided not to stay there as we had a

concern with those that might seek us out to show that we were nudist staying at a nudist place. We were told to not have a concern.

After the dream, while I was typing this email, we received a call from the Honda dealer. It looks like the Honda (not the dealer) will cover all most all of the cost of the car repairs as well as the large towing bill. The car should be ready by tomorrow afternoon to be picked up.

We look forward to getting together in Florida in a few weeks.

Again I will mention to NOT print out this email as we do not want it to fall in to the hands of those that would use it against this ministry. With your group talk about the clear direction that needs to be taken. Think of how God is calling His women. Think of how many are called but few are chosen or will choose to follow what He asks. Who can have a heart set that they want to wear what He asked and have a mindset of being an exhibitionist?

If you do have questions I ask that you contact Isabel. (sorry Isabel)

It is our prayer that each ponders what has been shown.

May God bless as we continue on in faith.
